

# Will I feel like...

# “less of a dog?”

## “Your dog will not have an identity crisis!”

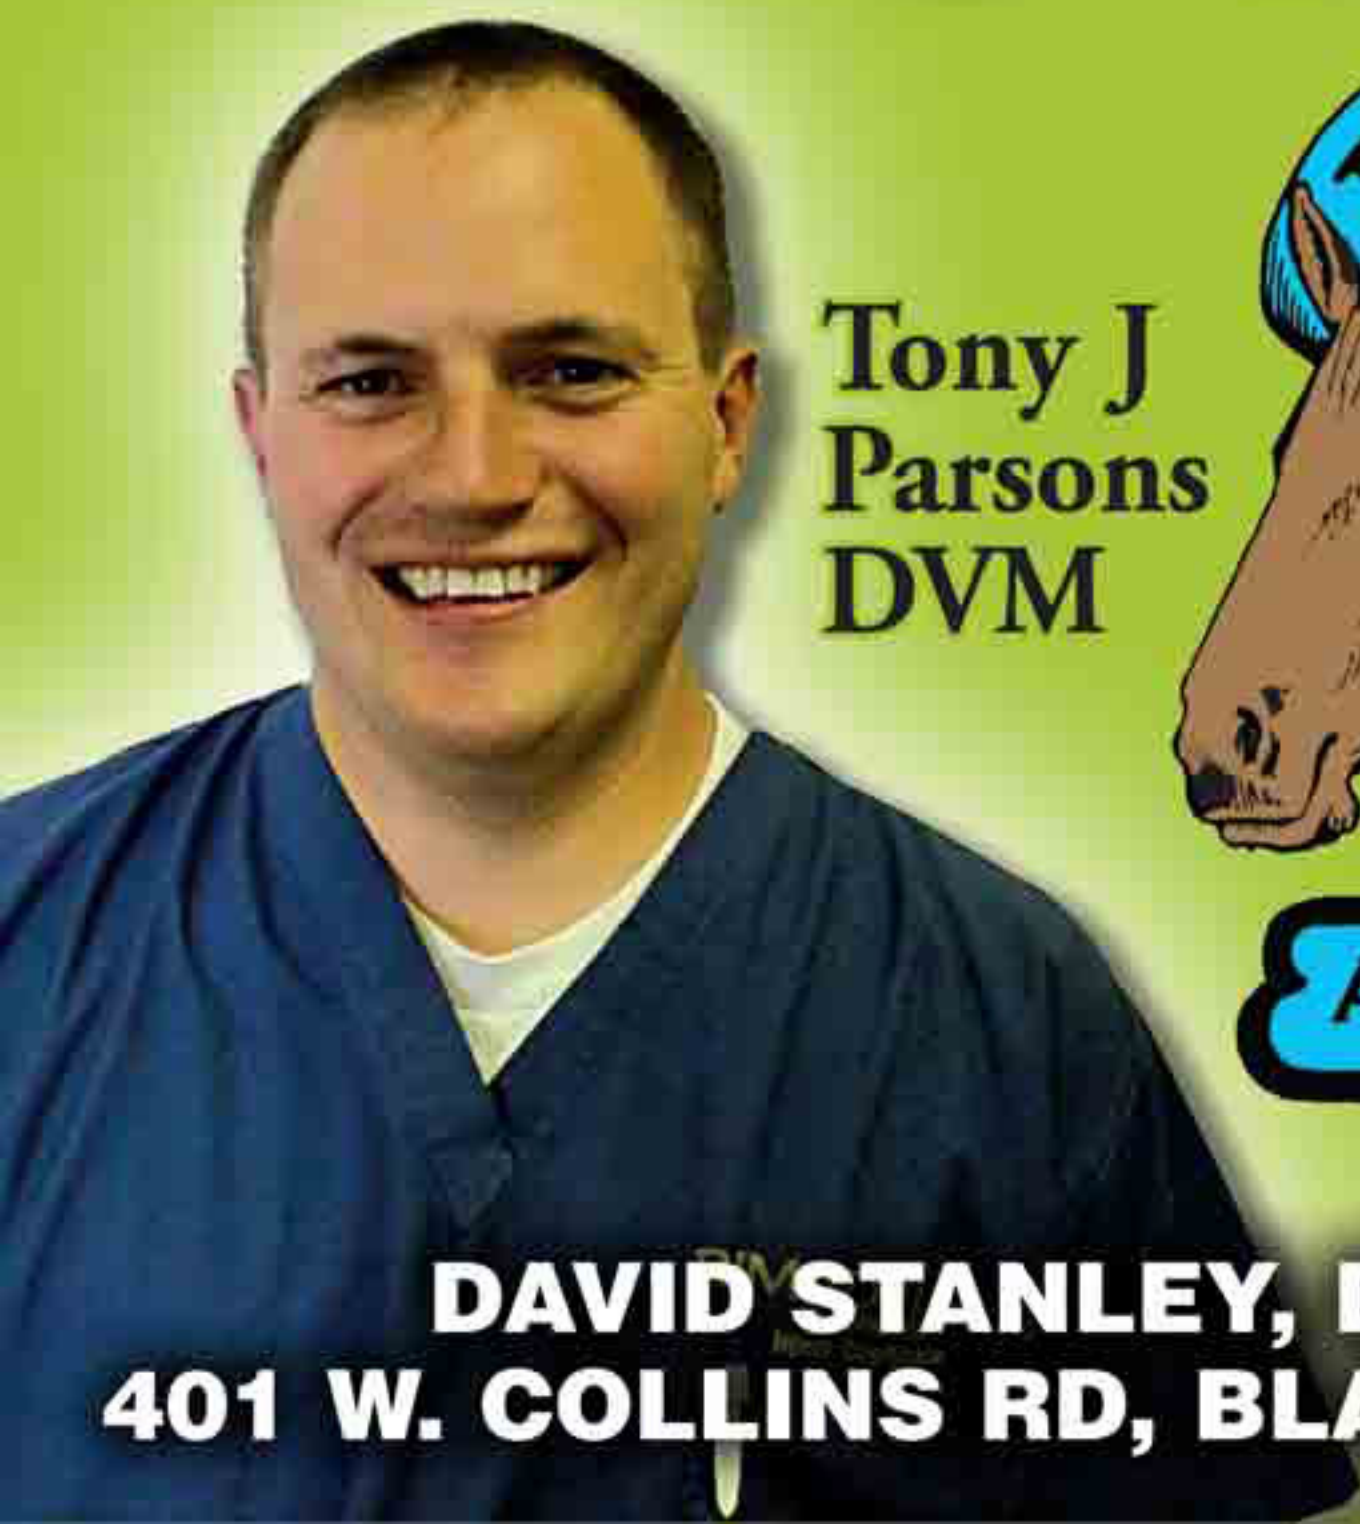

Your pet's identity is based on its environment and genetics, so your pet's personality will not be changed with Spaying or Neutering; your pets do not have a sexual identity or ego. In fact, spaying & Neutering will not even change your dog's instinct to protect you and your family!

## Basic Dental Services
